

BROCHURE 2019

Thank you for contacting Inspire Furniture Rentals

To ensure that you have a pleasant experience please follow a few simple rules which are nothing new and are standard throughout the world. If you are unsure of something please ask for clarification, never assume!

- Remember a quote is not a confirmation and that stock cannot be guaranteed unless you receive a confirmation in writing from our reservation system (SOMS)
- Please do not make a payment into our account and expect your order to be confirmed, we must receive written confirmation of your order, preferable by e-mail.
- As with airlines and car rentals world wide, you need to ensure you check your quote, confirmation. Once you accept a quote and confirm we cannot be held responsible for incorrect information. It is always best to double check and ensure that everything is listed that you ordered.
- We love our furniture and we would ask you that you treat it as you would treat your own.
- We do not like charging clients for damages or losses, but in order for us to maintain our standard and sustainability (big word but necessary) if furniture is not returned in the same condition as it was received from us, we will have to repair and maintain it. We need to charge the person or company responsible as we have no control over the furniture once it has left our possession.
- Therefore please always ensure you check the furniture when receiving it. Once you have taken it you or your company is responsible for all damages & losses. This is what they call common law and it is no different anywhere in the world.
- We prefer not to get into discussions and waste your time about how items were damaged whilst in your hands. We would not be present and we would therefore not be able to explain this. Unfortunately we are not able to afford physio people so we are not qualified to advise you how the furniture was damaged whilst in your possession. If you are concerned that you will not be able to explain damages and losses we will gladly rent out one of our staff members to stay with the furniture at all times.
- We therefore apply a basic principle, return the furniture in the same condition as you received it.

Thank you for contacting Inspire Furniture Rental

To ensure that you have a pleasant experience please follow a few simple rules which are nothing new and are standard throughout the world. If you are unsure of something please ask for clarification, never assume!

- Remember **a quote** is a **not a confirmation** and that stock cannot be guaranteed unless you receive a confirmation **in writing** from our reservation system (SOMS)
- Please do not make a payment into our account and expect your order to be confirmed, we must receive written confirmation of your order, preferable by e-mail.
- As with airlines and car rentals world wide, you need to ensure **you check your quote, confirmation**. Once you accept a quote and confirm we cannot be held responsible for incorrect information. It is always best to double check and ensure that everything is listed that you ordered.
- We love our furniture and we would ask you that you treat it as you would treat your own.
- We do **not like charging clients for damages or losses**, but in order for us to maintain our standard and sustainability (big word but necessary) if furniture **is not returned in the same condition** as it was received from us, we will have to repair and maintain it. We need to charge the person or company responsible as we have no control over the furniture once it has left our possession.
- Therefore **please always ensure you check the furniture when receiving it**. Once you have taken it you or your company is responsible for **all damages & losses**. This is what they call common law and it is no different anywhere in the world.
- We prefer not to get into discussions and waste your time about how items were damaged whilst in your hands. We would not be present and we would therefore not be able to explain this. Unfortunately we are not able to afford physio people so we are not qualified to advise you how the furniture was damaged whilst in your possession. If you are concerned that you will not be able to explain damages and losses we will gladly rent out one of our staff members to stay with the furniture at all times.
- We therefore apply a basic principle, **return the furniture in the same condition as you received it**.
 - **PLEASE SEE PAGE 5 FOR TIPS on how to avoid damages**
